ANALYST NOTE

Hera local LLM

The EVO_GG1RSISNIP_v1400 strategy on META failed catastrophically, losing 17.5% of capital with a 33.28% drawdown across only three trades. A zero win rate and negative Sharpe of -0.85 indicate the logic is fundamentally broken for this asset class. Such a tiny sample size provides no statistical confidence; the results are likely noise rather than a repeatable signal. We must immediately stop deploying capital and re-evaluate the entry thresholds to eliminate these losing setups.
