ANALYST NOTE

Hera local LLM

The EVO_EVOEVOE_v768 strategy failed catastrophically on RDN, delivering a 5.59% loss with zero wins and a negative Sharpe ratio. A mere three trades provide insufficient sample size for statistical significance, rendering any performance attribution premature. The strategy suffered a severe 14.78% drawdown, indicating extreme risk exposure relative to the small trade count. Immediate action requires pausing execution and recalibrating entry logic to avoid capital erosion on this volatile ticker.
